

YOU CAN BE A MILLIONAIRE

AND YOU SHOULD BE

With Hina Khan

Welcome,

I'm firm believer that you can be a millionaire and you should be. Jim Rohn said "Everyone should have a goal of earning one million dollars" and he was right and I think it is especially true for women and BIPOC....why? Because money talks. Money can change your well-being, family, your community and more.

We have been told that to desire to make money means we are:

- + Greedy
- + Selfish
- + Shallow
- + Arrogant

I am here to call BULLSHIT on that. That dangerous narrative has kept wealth out of reach for so many of us.

Money amplifies who you are, so yes if you are an asshole you are going to be a rich asshole. If you are kind person you are going to be a rich kind person. Money doesn't change you it brings more of YOU to the surface. I want to show you that here... not just once but how my clients have achieved exponential growth over and over again... because if they can do it, so can you.

Hina's Method

The Self Made Millionaire Coaching Method

I work with my clients in a group setting over a six month period. I am firm believer that group coaching is just as powerful as individual coaching.

The main pillars we focus on during the six months are:

The millionaire mindset you need to have to thrive. Not just survive but truly thrive in the life you have always dreamt of.

Re-evaluating your current offerings, what to keep and what to let go of. What sort of team you need to bring on to achieve your goals, and what that next level business looks like (and act from there).

How to hold onto your success. This is not a five minutes of fame type of success that we are working on building. This is success that I want to last a lifetime for you, and it comes with ease!

We look at how to look at your numbers and cash flow. But not just what you currently have or expected to bring in. What you actually want to call on, the confidence of the person who achieves that, and so much more at a deeper level.

Thinking Into Results: Would this really work? Was she going to achieve her dreams?

Biggest Wins After Joining:

Drina had a **revenue explosion!** (And she tracked it on a graph above!) After joining Thinking Into Results. She has **10xed** her monthly revenue in 12 months.

She realized the how it happened didn't matter. What mattered was she held the belief that she could do that, she took everything she has learned throughout the program and applied it. What came next was abundance overflowing in ways that were never expected.

TIA SLIGHTHAM

OCCUPATION: PARENTING COACH

Biggest Hesitation To Joining Thinking Into Results:

She was worried it wasn't the right time. She was enrolled in other programs, and worried she wouldn't have enough time to show up in this program as well. What she did instead of feeding the fear was she made the decision from her next level. That next level version trusted her gut.

Biggest Wins After Joining:

She removed all doubt and changed her actions/behaviour match the **belief**.

That resulted in her creating her millionaire mindset and **DRASTICALLY INCREASED HER REVENUE OVER 6000%**, her pricing, and more. She is sharing more of HER to her clients and prospects.
